DODGE DART

This is a compact car guaranteed to turn heads and change perceptions.

Dart is neither boring, basic nor bland. It has been engineered without compromise, machined with technology and constructed with the DNA that comes from the same 100-year bloodline that birthed Challenger and Charger. This is the car that redefined the segment by offering features and benefits uncommon with other vehicles in its class. This is the standard. This is Dodge Dart.

*A note about this brochure: all disclaimers and disclosures can be found on page 19.

Information Provided by:
DEALER

DART IS A RARITY.

It's the type of car you can't help but stare at. The kind of car you wash by hand simply to experience its dramatic lines and curves. Dart is a compact car that will never ask you to sacrifice style for value. Instead, it doles out the greatest balance of sophistication, driving dynamics, and power wrapped up in bold Dodge style with the underpinnings of Alfa Romeo. Designed with ingenuity that regards personal space as a necessity and not a luxury. Dart offers Best-in-Class[1] shoulder room, Best-in-Class[1] front hip room, and more rear-seat legroom than some mid-size sedans. This is what a compact car was meant to be.

AS EFFICIENT AS 4.8 L/100 KM: 59 MPG HWY.*

All three Dodge Dart engines are tuned to deliver excellent horsepower, torque, and fuel economy ratings. The amount of attention applied to performance was matched by efforts to enhance each engine's durability, limit environmental impact, and reduce maintenance. In short, we made sure the Dart is a compact car you will look forward to driving.

*See page 19 for full details.

2.0L DOHC 16-VALVE TIGERSHARK™ WITH VARIABLE VALVE TIMING (VVT) — This engine is tuned for impressive low- and mid-range torque for greater drivability and overall fuel efficiency.

1.4L SOHC 16-VALVE INTERCOOLED TURBO WITH MULTIAIR® — This turbo kicks out 160 horsepower and 184 lb-ft of torque from 2500–4000 rpm. With 114 horsepower per litre, it offers the ultimate combination of power and fuel efficiency.

2.4L DOHC 16-VALVE TIGERSHARK WITH MULTIAIR — Combine Chrysler design with enhanced MultiAir technology from FIAT® and the result is one of the most advanced engines in its class.

MAKE A BOLD STATEMENT.

Dart SXT is dedicated to bringing you the best combination of style, performance and value. Powered by a 2.4-litre Tigershark™ four-cylinder engine with MulitAir® technology, you'll cruise confidently with 184 horsepower. Standard projector headlamps and signature LED racetrack taillamps instantly impart upscale sophistication, while 16-inch Tech Silver wheels give you flair. Inside, you'll appreciate the convenience of air conditioning, hands-free communication[2] with Bluetooth® streaming audio, power windows with driver one-touch down, power door locks with remote keyless entry, steering wheel-mounted audio controls, front sliding armrest and more. It's uncommon features like these that set Dart apart.

If you're looking for a more refined ride, check out Dart Limited. Bright grille and door handles, projector fog lamps and 17-inch Satin Silver aluminum wheels give this trim level its polished good looks. The interior is filled with must-have amenities like Nappa leather-faced seating, a power 10-way driver's seat, and heated leather-wrapped steering wheel with cruise and audio controls.

Dart Limited shown in Granite Crystal Metallic.

CLASS-LEADING[1] TECHNOLOGY.

Uconnect™ keeps you close to your favourite people, music and places. The available award-winning 8.4-inch touch-screen multimedia centre is the largest in its class[1] and features easy-to-navigate icons for radio controls, personal devices such as an iPod® or climate controls, and available features such as SiriusXM Satellite Radio,[3] navigation,[4] and hands-free communication[2] with Bluetooth® streaming audio. The Uconnect 8.4 is further set apart by the Ruby Red-illuminated floating island bezel which surrounds the gauge cluster and radio screen.

Bring along your own tunes via available remote USB port with iPod® mobile device control or wireless Bluetooth® streaming. The USB port can also charge your compatible devices. With available voice command[2] and steering wheel-mounted controls, there's no need to take your hands off the available class-exclusive[1] heated steering wheel. Give voice commands[2] for features like phone operation, radio/CD functions and accessing your digital media players. Opt for Garmin® navigation[4] for turn-by-turn directions, lane guidance and local points of interest.

7-INCH CUSTOMIZABLE IN-CLUSTER DISPLAY.

The available class-exclusive[1] 7-inch customizable in-cluster display centre delivers real-time information on performance, vehicle status and available navigation[4] in full colour and with incredibly rich graphics. The ability to customize the display is almost limitless. Choose between an analogue or digital speedometer, track current and average fuel economy, view vivid turn-by-turn navigation information and receive alerts with the available Blind-Spot Monitoring System.[5] Cycle through multiple menu items with simple steering wheel-mounted controls. This brilliant 7-inch in-cluster display is just one of many features that make Dart the most technologically advanced car in its class![1]

STEP UP TO SOMETHING EXTRA.

GT. Two little letters following the Dart moniker stand for something big — big on performance, big on style. The Dart GT ensures you're well equipped to make the most of your everyday by providing a more enhanced driving experience every way you turn, shift, or look. Performance steering, unique engine calibration, unique transmission ratio, and a sport suspension with frequency-sensing damping shocks provide the added driving dynamics while black front fascia accents, black headlamp surrounds, Hyper Black front grille, and 18-inch Hyper Black wheels provide the added good looks. The Black and Red Nappa leather-faced seating, Uconnect 8.4, and 7-inch customizable in-cluster display centre feed your need for technology and comfort.

Information Provided by:

SAFETY: TECHNOLOGY

2013 IIHS TOP SAFETY PICK+

ELECTRONIC STABILITY CONTROL (ESC)[6]

When road conditions are not at their best, the standard ESC helps the driver maintain vehicle directional stability and limits oversteer or understeer. ESC includes All-Speed Traction Control, Brake Assist, Electronic Roll Mitigation and Trailer Sway Control.

10 AIR BAGS[8]

Advanced multistage driver and front-passenger air bags, supplemental front-seat side air bags, rear-seat-mounted pelvic side air bags, side-curtain air bags, and driver and front-passenger knee blocker air bags. Standard.

ENHANCED ACCIDENT RESPONSE SYSTEM (EARS)

This standard system makes it easier for emergency personnel to see and reach occupants in the event of an accident by turning on interior lighting, flashing hazard lamps and unlocking doors after air bag deployment. It also shuts off the flow of fuel to the engine.

REAR CROSS-PATH DETECTION[7]

When in Reverse, rear sensors detect if cross-traffic approaches the vehicle and warns the driver with an audible chime. Included with Blind-Spot Monitoring.

BLIND-SPOT MONITORING (BSM)[5]

While driving forward, the BSM continually monitors blind zones on either side of the vehicle. When an object is detected, an indicator light illuminates in the appropriate exterior mirror, and an audible notification sounds. Available.

PARKVIEW® REAR BACK-UP CAMERA[7]

This system displays an accurate visual reference of what is behind your vehicle when you are in Reverse. Available.

PARK-SENSE® REAR PARK ASSIST[7]

When in Reverse, these sensors detect the presence of objects in the back-up pathway and provide an audible and visual warning. Available.

AUTO HIGH-BEAM HEADLAMP CONTROL

This system automatically switches headlamps from high to low beam and back again when oncoming headlamps or forward-lighting elements are sensed. Nighttime driving is also assisted by providing the maximum amount of light possible for any driving scenario. Available.

READY ALERT BRAKING

This standard system anticipates situations when the driver may initiate an emergency brake stop and uses the ESC[6] pump to precharge the brake system in order to decrease the time required for full brake application.

ANTILOCK BRAKE SYSTEM (ABS)

The standard four-wheel disc antilock brakes sense and prevent wheel lockup, offering improved steering control under extreme braking and/or slippery conditions.

WARRANTIES: 2014 Chrysler, Jeep, Dodge and Ram vehicles are backed by a 5-Year or 100,000-Kilometre fully transferable Powertrain Limited Warranty* with $0 deductible plus 24-hour roadside assistance.† SRT vehicles are backed by a 3-Year or 60,000-Kilometre fully transferable Powertrain Limited Warranty* with $0 deductible plus 24-hour roadside assistance. Basic Warranty coverage is for 3 years or 60,000 kilometres.* Rust-through coverage on all body sheet metal is for 3 years. The Cummins® Turbo Diesel engine is protected by a separate Limited Warranty, covering the engine for 5 years or 160,000 kilometres.* The EcoDiesel engine is backed by a 5-Year or 100,000-Kilometre fully transferable Powertrain Limited Warranty* with $0 deductible plus 24-hour roadside assistance.†

*Whichever comes first. Some conditions may apply. †The 5-Year/100,000-Kilometre Powertrain Limited Warranty does not apply to vehicles sold for certain commercial uses. See your retailer for full details.

SERVICE CONTRACTS: Chrysler Canada Inc. has a vested interest in your satisfaction and owner experience with your new vehicle. Chrysler Canada Service contracts offer extended service and maintenance plans to help ensure you'll enjoy your vehicle for many years down the road — for just pennies a day. For more information on comprehensive vehicle coverage, see your local Chrysler, Jeep, Dodge and Ram Retailer, call 800-465-2001, or visit chryslercanada.ca/owners

DISCLAIMERS: 1 Based on 2013 *Ward's* Upper Small Sedan costing under $25,000. 2 Driving while distracted can result in loss of vehicle control. Only use mobile phones and other devices, even with voice commands, when it is safe to do so. Voice commands of phone require a Bluetooth compatible phone. 3 Requires SiriusXM radio subscriptions governed by SIRIUS terms and conditions available at siriusxm.ca 4 Never program while driving. GPS mapping may not be detailed in all areas or reflect current road regulations. 5 Always check visually for vehicles prior to changing lanes. 6 No system can repeal the laws of physics or overcome careless driving actions. Performance is limited by available traction, which snow, ice and other conditions can affect. When the warning lamp flashes, the driver needs to use less throttle and adapt speed and driving behaviour to prevailing road conditions. 7 Always check entire surroundings before manoeuvring your vehicle. 8 The advanced front air bags in this vehicle are certified to the federal regulations for advanced air bags. Children 12 years old and younger should always ride buckled up in a rear seat. Infants in rear-facing child restraints should never ride in the front seat of a vehicle with a passenger front air bag. All occupants should always wear their lap and shoulder belts properly. 9 Always sit properly with the head restraint properly adjusted. Never place anything in front of the head restraint. 10 Not compatible with all garage door openers.

100 YEARS OF DODGE

One hundred years ago, the first Dodge vehicle was introduced — and the roads have never been the same since. Dodge was, and still is, a brand that stands for standing out. A brand with the inherent belief that your vehicle should move you in more ways than one. This is Dodge.
